

Guide for Authors of the ABSTRACTS of the GiDe Conference, to be published in a Special Volume of the Rendiconti della Società Geologica Italiana

Submission of abstracts

An electronic copy of the text, saved in Word format (either for PC or for Mac), plus a copy for optional, individual figures, saved in light (max 500 dpi) TIF, EPS or PDF formats, should be sent to: convguide@dst.unipi.it. Authors should submit their names, complete postal/institutional addresses, telephone numbers and e-mail addresses.

Preparation of the text

Abstracts must be written clearly in English. *Title, abstract, figure captions and key words must be in English.* The text, including references and figure captions, must be double spaced, 12 pt., normal, Arial character, typed on one side only of A4-size paper with 2,5 cm margin and numbered consecutively. Abstracts should not exceed n. 4 printed pages (please, note that there are c. 1000 words on a printed page). References should be inserted in parentheses in the text in full for single and dual authored papers (e.g. LYELL & BERTRAND, 1987), but using first author and *et alii* for multiple authored papers (e.g. LYELL *et alii*, 1988). The order in the text should be chronological, then alphabetical. List all references cited in alphabetical order at the end of the article in the following standard form:

BAKER V.R. (2006) – *Water and the evolutionary geological history of Mars*. Boll. Soc. Geol. It., **125**, 357-369.

RAMSAY J.G. & HUBER M. (1987) - *The techniques of Modern Structural geology. Volume 2: Folds and Fractures*. Academic Press, London.

WEGENER, A. (1912) – *Die Entstehung der Kontinente*. Geol. Runds., **3**, 277-292.

Illustrations

The maximum available space for an illustration is 185x244 mm (full page) or 90x244 mm (column). Figures should be prepared with lettering and symbols of sufficient size and clarity to be reduced (Arial, 6-8 pt. minimum). After reduction the smallest lettering should be a minimum of 2mm high. The approximate position, the suggested size for reproduction and the corrected orientation should be indicated. All figures should be supplied with a separate figure legend included in the text and not in the figure file. After acceptance of the paper, digital version of the figures should be as EPS or 500dpi TIF files. Authors who wish to include color figures in their abstracts must contribute to the printing cost, 390 Euro + VAT at 20% per page.

It is the responsibility of the Authors to ensure that permission is granted for reproduction of any copyright material (reproduced figures, tables, text passages) and that this permission is acknowledged in their articles.

Abstract Proofs

Due to time constraints, the Lead Author of each submitted abstract will receive via email page proofs sent by Grafica Cristal S.r.l., that should be corrected and returned within 48 hours. Should for a Lead Author not be possible to meet the imposed deadline, the abstract will be printed as it appears on the proofs. No offprints of abstracts will be provided. Proofreading is the responsibility of the Authors. Corrections should be clear; standard editorial correction marks, or clear electronic marks should be used. Substantial changes at proof stage will not be accepted.
